Education

Graduate Certificate Program – Web Application Development
Boston University, Boston, Massachusetts

Graduated December 2023

Master of Fine Arts – Interactive Media and Design
Cumulative GPA: 4.0
Becker College, Worcester, Massachusetts

Graduated May 2021

Bachelor of Arts – Interactive Media and Design
Concentration in Game Programming, Minor in Math
Cumulative GPA: 3.8
Becker College, Worcester, Massachusetts

Graduated May 2020

Skills

Languages: C#, C++, C, Javascript, Typescript, Python, HTML, CSS, R

Frameworks: React, Angular, Node.js, Express, jQuery, Bootstrap

Tools: Unity Engine, Git, Autodesk Maya, Blender, Houdini Engine, Plastic SCM, Adobe Photoshop

Other Skills: Project/Team Management, Game Design, Embedded Systems Programming, Teamwork

Experience

Clark University – Unity Developer

May 2022 – July 2022

- Worked in Unity Engine to add data analytics to an existing VR game (under NDA)
- Collaborated with other developers to add new and retrofit existing features
- Used Snowflake API and Unity Data Analytics to send data to servers

Team Lead, Lead Programmer – Manaclysm

September 2019 – September 2021

- Led team of 8 developers in the creation of a 3D Unity based card game
- Facilitated concept ideation and created/implemented programming architecture using Abstract Factory and Decorator OOP design patterns
- Optimized and refactored codebase, implemented Mirror library for local and online play

Sole Developer – Cooking King

August 2019 – June 2020 &

May 2023 – Present

- Rebooted an old project to pivot to a data analytics business model
- Independent mobile research project focusing on the psychology and marketing of mobile games
- Created a mobile app in Unity Engine utilizing smartphone gyroscopic controls
- Implemented custom data analytics with scaleable Express server backend

Programmer – Skaterfrog

August 2018 – May 2019

- Programmed an acrobatic, speed-based endless runner game with custom physics engine for PC
- Consolidated code between individual programmers
- Reached #5 on free and trending games in February 2020 on Steam, a gaming platform with 90+ million users

Programming Intern – InMotion Systems LLC.

Summers of 2018 & 2019

- Independently revamped legacy application to leverage newer Unity features, as well as modified existing behavior and UI to meet user/client needs
- Used TCP/UDP protocols to transmit data from main application to remote application I was developing
- Prepped app for Google Play Store/Apple Store release
